## Introduction Letter

AAE is a well-known and reputable Civil and Mechanical services company, wholly owned and operated in provinces of Basra, Nassiriya, and Muthanna. Through its experienced staff, reliable subcontractors and vendors, AAE is in an enviable position of offering variety of high quality civil and Mechanical work and services. Our management team includes individuals with more than 28 years' experience working at the most senior levels in Iraq, and International oil and gas markets. Our relationship with local communities allows us to operate with confidence and trouble-free environment with mutual respect and benefits. Our financial resources and cash reserves are more than adequate to support our business growth goals and objectives. AAE Company equipped to provide all sort of civil and mechanical maintenance services. We aim that our reputation leads others toward us. AAE takes pride in its work, aiming at an on time and on budget delivery through its internationally experienced management, local knowledge, resource, highly skilled Engineers, technicians, workforce, subcontractors, vendors, and associates. AAE mission is to identify and satisfy the customers' needs; and be cognizant of their expectation of prompt and reliable personal service.

### Integrity and Ethics

AAE has an integrated ethics and general integrity and practices. Please see our integrity and ethics manual

### Management Systems

AAE has an Integrated Management System (IMS) in relation to Safety, Quality, Community, and the Environment.

### Safety Management

As an OSHA certified company AAE and all its employees and subcontractors adhere to OSHA standards and all Safety Policy in line with the Occupational Health and Safety regulations. Our Safety Policy Statement describes our commitment to upholding safe working practice. Please see our SHE manual

### Quality Management

As an ISO certified company, prior to commencing any works, a project specific Quality Management Plan according ISO standard can be developed to incorporate task specific Inspection and Test Plans (ITPs) and any necessary inspection checklists. These documents along with all other material certification and quality assurance items will be compiled to be delivered on completion of works. Please see our QA/QC manual

## Leadership

## Zeiad Ghalib Al-hachami Managing Director

A professional engineer and a PMI certified project manager with over 28 years of diversified experience in engineering, and project management with extensive experience the Oil & Gas and Chemical industry. Worked and lived extensively in the US and Iraq. Worked for the most reputable employers such as; ExxonMobil, the Louis Berger Group, URS, Sigma Chemical from different angles of business directions as a consultant, owner representative, and represented general contractors on the design and construction of several multi disciplines engineering and construction projects from concept to close outs including project plan development, conceptual design, risk planning and risk assessment, design reviews, construction management, contractual managements and many other aspects of engineering and project management. Mr. Alhachami earned his BS in civil engineering from Mosul university and His MS in structural engineering form the southern Illinois university, he worked on his PhD in operation research with the University of Houston and currently engaged in a Doctoral research and studies in project Management with focus on the oil and gas construction with the University of Liverpool

## Our Vision and Values

## Local Community and Socio-Economic Philosophy

AAE places great emphases on the development of local economy and mutual respect with local population wherever it works. We have very close relationships with all local tribes all over the southern provinces where we can be at your disposal for any potential socio-economics issues in addition to our knowledge of the government of Iraq and local government rules and regulations with almost every project we have executed. We have to be of benefit to local communities where we normally forge agreement with local tribes in the work area and propose the following to them:

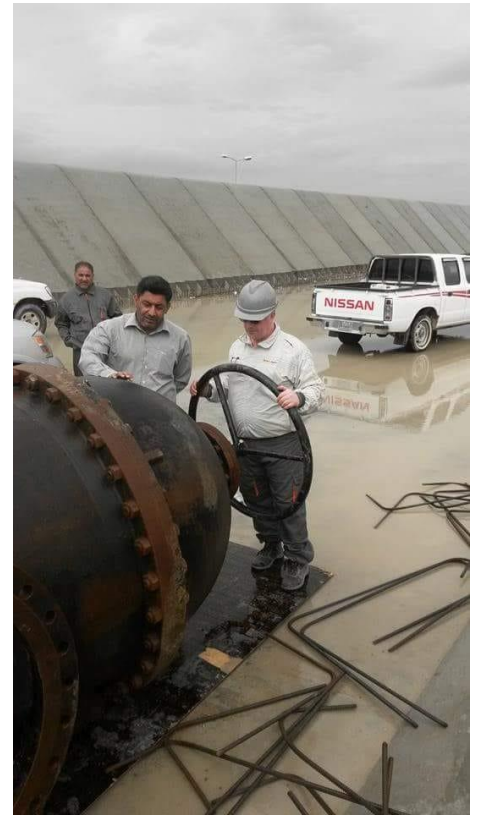

- 1- Approach the community for listing adequate number of young men on our workforce
- 2- Conduct a skill analysis for the recruit
- 3- Provide craftsmen training with pay
- 4- Employ everyone according to their education and skill set
- 5- We also strive to utilize each resource from the area in terms for providing Materials, services, subcontractors, life support, food, security, supplies, and any rental equipment and vehicles for transportation
- 6- This approach and philosophy was key to our success where we were able to maintain a ZERO problem with local communities and developed great positive reputation

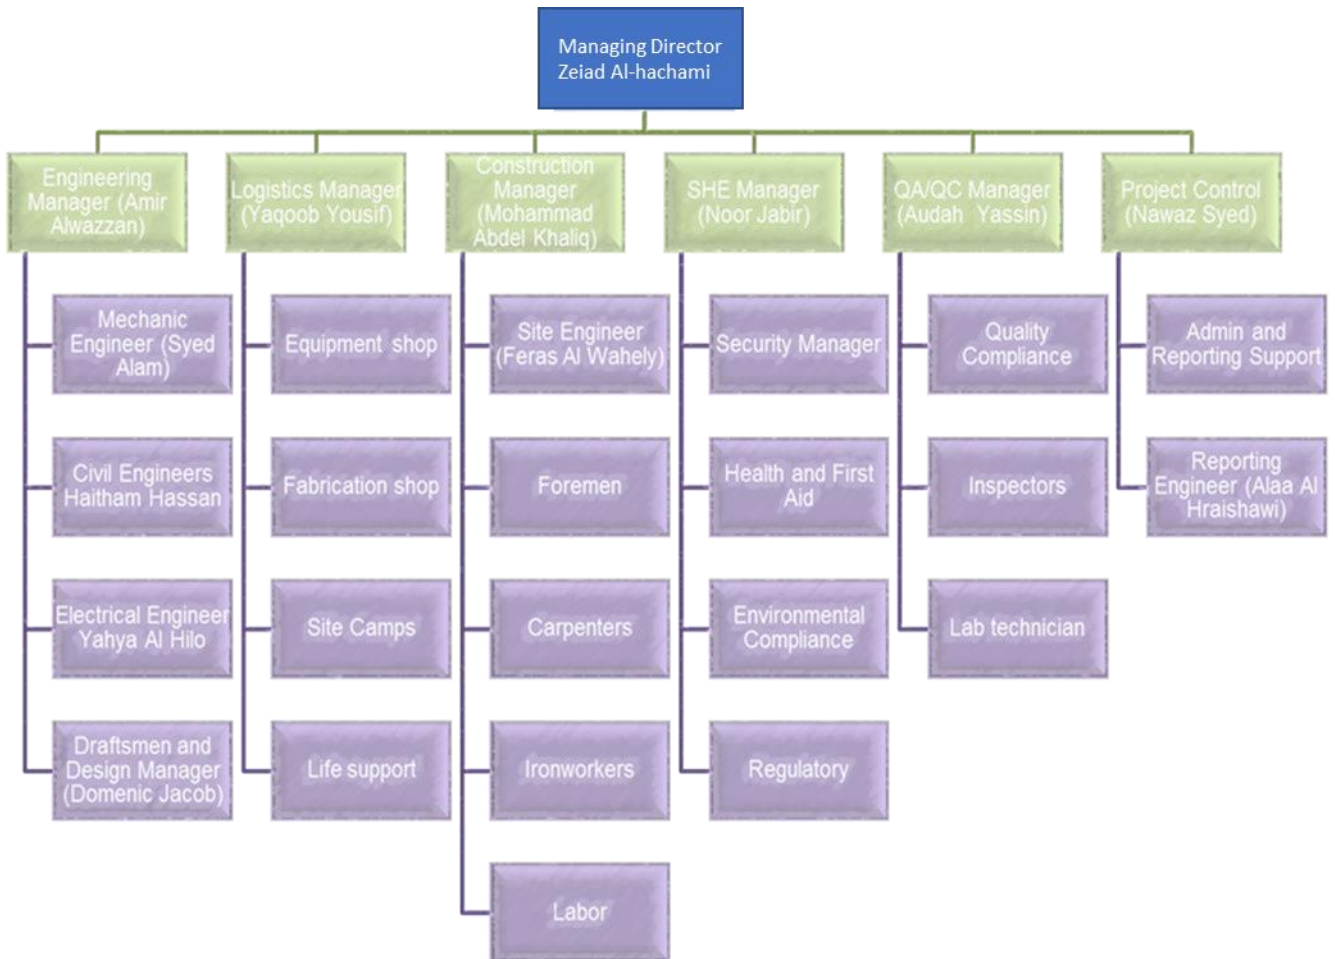

## Our Organization

AAE company structure is formed as displayed on the org chart. Managing director is responsible for all company activities where project management team, senior level project managers, QA/QC manager, SHE manager, project control manager, logistics manager, and construction managers' report directly to the managing director. For site works, Project engineer, QA/QC personnel, SHE officers, foremen, technicians, and other labor workmen to perform this job all report directly to the project manager who reports directly to the managing director. We plan our work and execute our plans as this is vital for concurrent activities in multiple locations to expedite project delivery and to meet client's desired schedule.

- a) Each team member/worker shall report to the project director who manages all function and have an executive level decision making power.
- b) Structural reporting shall be per function to the site engineer locally and to function's manager centrally.
- c) There shall be staging area to make an efficient supply chain that feed the entire project.
- d) Procurement shall be central in purchasing but localized in warehousing and staging areas to feed site personnel with their immediate needs.
- e) Engineering shall be central and report to the project director
- f) SHE and QA/QC shall be localized to site specific conditions with central supervision of assurance function
- g) Project control shall be central and report to the project director directly

**AAE-Organizational Chart**

**Key Personal Profiles**

Position	Name	Qualification / Experience
Managing Director	Dr. Zeiad Al-Hachami,	A professional civil engineer and a PMI certified project manager; Mr Al-Hachami has over 28 years of diversified experience in EPC project management with extensive experience the Oil & Gas and Chemical industry. Worked and lived extensively in the US and Iraq. Served in the public and the private sector and dealt with local, state, and federal government departments and agencies in the US and worked on the capacity building of the Iraqi local government in southern Iraq. He has worked from several angles of business direction; as a consultant, owner, representative, and has represented general contractors on the design and construction of several multi disciplines engineering and construction projects from concept to close outs including project plan development, conceptual design, risk planning and risk assessment, design reviews, construction management, contractual managements and many other aspects of engineering and project management. Mr Al-Hachami has a variety of skills and is experienced and well versed with the oil and gas industry. He has worked for several reputable employers in the past, including ExxonMobil, Portage Engineering, URS, Lambert International Airport, Sigma Chemical Corporation, and RTI International. Mr Al-Hachami earned his bachelor’s degree in Civil Engineering from Mosul University, and his master’s degree in Structural Engineering from Southern Illinois University. He worked on his PhD in Engineering Management with the University of Houston and is currently continuing doctoral research in Project Management with the University of Liverpool. Mr Al-Hachami is a licensed professional engineer with the NCEE and is PMI certified as a PMP. He is also a member of the American Society of Civil Engineers. Mr Al-Hachami holds dual Iraqi-American citizenship and is fluent in both Arabic and English.
Engineering Manager	Dr. Amir Alwazzan	Dr. Alwazzan is a highly efficient petro/mechanical engineer with over 26 years of extensive hands-on experience in the field of

		<p>petroleum engineering, production engineering, project management and pipeline engineering. Mr. Alwazzan earned his Master in petroleum engineering from the University of Baghdad and his PhD in mechanical engineering from the University of Malaysia. Mr. Alwazzan has a compatible set of skills that include but not limited to the direct hands-on involvement in the execution of many projects (reviewing all data/information/technical aspects, models, spread sheets, calculations and reports/deliverables), leadership skills, strategic planning and Implementation, etc. His awards include the “Conrad Schlumberger prize for Technical Depth” and the “AMEC’s President Endorsement and Silver Bullet Award for Outstanding Performance”, Mr. Alwazzan’s work experience includes OneSubsea, Schlumberger, Onshore, Fadagostar Janoob Inc. and Southern Oil Company (SOC). He is an Iraqi-American dual citizen and is fluent in Arabic, Farsi, Malayan, and English.</p>
<p>Construction Manager</p>	<p>Dr. Mohammed Abdul Khalliq</p>	<p>A civil engineer and an adjunct University Professor; Dr. Abdul Khaliq has over 25 years of diversified experience in engineering and construction management with extensive experience the Oil &amp; Gas and Chemical industry. He has worked from several angles of business direction; as a consultant, owner, representative, and has represented general contractors on the design and construction of several multi disciplines engineering and construction projects from concept to close outs including project plan development, conceptual design, risk planning and risk assessment, design reviews, construction management, contractual managements and many other aspects of engineering and project management. Mr Abdul Khaliq has a variety of skills, and is experienced in roads and bridges work and well versed with industry. He has worked for several reputable employers in the past, Mr Abdul Khaliq earned his Bachelors degree in Civil Engineering from Mosul University, and his Masters and Ph.D in Civil Engineering from the University of Bagdad</p>

<p>Chief Civil Engineer</p>	<p>Dr. Haitham Hassan Muteb</p>	<p>Dr. Muteb is a well-qualified, well-experienced engineer and professor. He has over 25 years of experience in the engineering field and has great insight in matters of civil engineering. Dr Muteb received his Bachelor of Science in Civil Engineering from Mosul University, his Master of Science in Civil Engineering (Structures) from Saddam University, and his Ph.D. in Civil Engineering (Structures) from Baghdad University. Dr. Muteb has been employed as an engineering professor by many reputable accredited Iraqi universities, including Babylon University, Baghdad University, University of Technologies, and University of Karbala, and has supervised 19 MSc Theses and 6 Doctoral Dissertations. Dr. Muteb is a well-known structural engineer in Iraq, having designed many high-rise buildings (including Babylon Private Hospital and AlSalam Private Hospital), and specializing in steel and concrete structures. Dr. Muteb has expertise in using many different drafting software, including but not limited to ETAB, SAP 2000, and AutoCAD. He is a member of the Iraqi Engineers Union, and has been a member of many national engineering committees, including the committee of the Iraqi Code of Steel Structures and the Iraqi Code of Protecting Buildings from Fires. Dr. Muteb is an Iraqi citizen, and is fluent in Arabic, English, and Kurdish.</p>
<p>Chief Electrical Engineer</p>	<p>Dr. YAHYA AL-HILO</p>	<p>Mr. Al-Hilo is an electrical engineer with nearly 28 years of professional experience in EPC power utility services and substation design; LV/MV distribution system and standby DG plants, as well as being experienced in analytical techniques (short circuit, load flow, motor starting, and development of three/single line diagrams). Mr Al-Hilo has productive field understanding in cables and equipment's installation and commissioning. His work experience includes: the Power System Engineering Site, Emerson Electric, Worley Parsons, Stanley Consultants, and General Electric. Mr Al-Hilo earned his Masters of Science in Electrical Engineering from Southern Illinois University and his Bachelors of Science in Electrical Engineering from</p>

		<p>Southern Illinois University as well as a Bachelors of Science in Electrical Engineering from University of Mosul. Mr Al-Hilo is a dual citizen of America and Iraq, and is fluent in both English and Arabic.</p>
Chief Mechanical engineer	<p>SYED ALAM, PHD</p>	<p>Syed Alam is a client-driven Engineer who has 15 years of experience in managing EPC projects and very successful in building client relationships. He is well qualified, and earned his Bachelor of Science in Electronics Engineering from Osmania University, and earned his Masters of Science in Mechanical Engineering from Osmania University. Mr Alam also holds a wide array of specialized diplomas, including diplomas in Computer Applications and Torqueing and Tension. Mr Alam has a wide range of experience that includes bolt tensioning and torqueing, maintenance of plate heat exchangers, and maintenance of tube bundles. Mr. Alam has worked with many clients and companies including Aramco, Saudi Arabian Electricity Corp., Ashbah Almowasillat Trd. Est, and Berrup Fertilizer Plant. He is a trustworthy and hardworking engineer, who is a pleasure to work with. Mr Alam is an Australian Citizen and is fluent in Arabic, English, Urdu, Hindi, and Telugu.</p>
HSE Manger	<p>Arafat Alasady</p>	<p>Mr. Alasaday has more than 10 year of SHE management practice where he worked for several high calibre companies such as KBR, Shell, ExxonMobil. He earned his BS in Environment and Pollution Engineering form Technological university. His expertise cover broad range of HSE aspects including but not limited to Journey management, PTW (Permit to work), H2S Awareness, Driving awareness and accountability for environmental, health safety performance through all levels of the organization. He has Assisted in planning, developing tracking safety programs and in Identify exposures; recommending practical solutions including presentations to management. He is very experienced in Review accidents and incidents; conducting investigations with follow up reporting monitoring of the corrective actions and in Risk Management function</p>

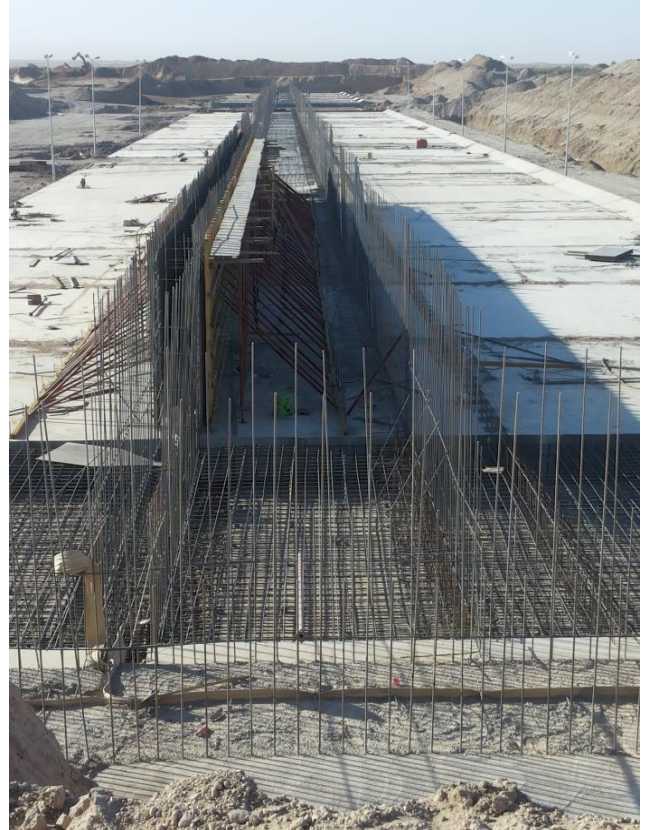

<p>QA/QC Manager</p>	<p>Audah Yassin</p>	<p>Mr. Audah Yassin has extensive experience in the field of quality control and quality assurance. Throughout his carrier, Mr. Yassin worked for many reputable companies in Iraq. He worked for the municipality and works of military laboratory, test department (concrete, aggregates and construction materials), Al-Nassiriyah Technical Institution, Al-Sarra Company, Najran Company for Engineering Contracts, Louis Berger Group, RTI (Research Triangle Institute), Provincial Reconstruction Team (PRT), Sewage Water Company, Cameron and Al Kasalyah Company. Where he occupied various positions such as a lecturer, a Project Engineer for sewages network project (Pipeline network project), a planning engineer, Project Manager for Nassiraya correctional facility, Senior Engineer, Quality Control manager and a QA/QC manager. Engineer Yassin had obtained his Bachelor degree from Basra University. Then he acquired many certificates including GTSC, H2S, Fire Fighting, Forklift Operator, Slings &amp; Rigging Awareness, Handling of Hazardous Material, Confined Space Entry, Local Governance Project Regional (LGP III), and Training course of Quality Control and Quality Assurance</p>
<p>Chief SURVEYOR</p>	<p>Hayder Imad Saheb</p>	<p>Mr. Hayder has more than 12 years of active surveying work where he worked for several companies in southern Iraq such as Alyama, Taaz, in multiple location in North Rumail, West Quran, and Basra airport. He earned his BS degree from Basra University and very proficient with Total Station , Level and GBS, Microsoft Office and AutoCAD</p>
<p>Equipment supervisor</p>	<p>Sahap Cylan</p>	<p>Mr. Cylan is an expert Mechanical equipment and works with more than 30 years of practice and very professional in field safety supervisor with working at height training, hot work, mechanical installation and more. He worked on numerous pipeline and road work project in different locations in Turkey, Azerbaijan, UAE, and Iraq including Nassiriya.</p>

## AAE SERVICES:

### Civil work and Service:

We have a long experience in all sorts of heavy civil works with highly satisfied clients as shown on our sample list (the list too long for this profile, thus it is limited only to recent work). We can undertake a complete turnaround package and project management of any civil project regardless of any size and complexity. Our civil service includes but not limited to the following:

- Earth work.
- Tanks foundations
- Manifold pads
- Associated water separation and treatment systems
- Dikes, bundwalls, and embankments
- Pipe racks and steel structures
- Major infrastructure projects such dams, roadways, bridges, and more
- Security infrastructure such as Fencing and guard towers installations.
- Variety of concrete and steel Buildings including pre-engineered and prefabricated buildings
- Camps and accommodations with full infrastructure and life support system.
- Waterways system design and installation.
- Sewer system design and installation.
- Irrigation system design and installation.
- Pavement for roads and walkways.
- Piles foundation supply and installations.
- Warehouse and cover storage Constructions.
- Supply and delivery of variety of construction materials including pre-fabricated steel and dray and wet concrete mix.

Samples of our civil work:

Project/Brief Scope	Client's Name	Duration	Value in USD	Contact person (reference))
WQ-I associated water separation system at DS8 and DS7, EPC of multiple skimmer systems, storage lagoons, pumps, piping, and evaporation pits	ExxonMobil JV with Tareeq Alhaq	9 Months	3,250,564	Mahran Khalil 07809178560
Galalha Submerged Dam – Badrah, heavy civil and concrete work for more than 4000 cubic meters of concrete. Galal Barah Dam and buildings. EPC for offices, control buildings, mechanical gated systems, piping, and dam infrastructure	Ministry of water resources	26 months	13,250,000	Moyad Alrikaby, 7704201470
Four hydraulics installations with full civil and mechanical work at Alhammar marsh in Chibaish	Marshland rehabilitation center – Alrafidain public company	15 months	11,923,025	Amjad Hafidh, 7801107176
East side Kut city Roads, sidewalks, and sewer network, JV work with Almimar	Alkut provincial government	18 months	28,900,730	Engineer Abbas, 7704133652
Chibaish Highway Bridge. Bridge design and construction with roadway work and ancillary systems	Thi Qar provincial government	19 months	2,495,500	Abdul Amir Alasady, 07814188444
Water Amusement city. EPC for several buildings and water amusement and internal roads and infrastructure	Mohammed Alzamily	(one year)	1,295,050	Mohammed Alzamily, 7809374777
New Shopping complex construction. EPC for market place and shopping area buildings, roads, sidewalks, and sewer system	Chibaish Municipality	16 months	2,962,320	Husam Alkhuzai, 7726310250
Storage buildings and office. EPC for large storages and workshops in addition to office buildings	Alahram International	Seven months	1,920,00	Abdul Amir Sharad, 07814188444

Shopping market with roadway network. (EPC) for Buildings construction, roads, traffic, signage, and sidewalks	`Thi Qar provincial government	13 months	1,279,500	Khalid Alasady, 07801396258
Mid-Marshland Irrigation system. Engineering, supply and installation (EPC of Mechanical work for gates, control buildings, and cover storages with roads and local dams	Ministry of water resource	25 months	3,761,570	Amjad Hafidh, 7801107176
Associated civil work for third river escape hydro gates and dam	Third river Directorate – Iraq public company	16 months	9232200	Moyad Alrikaby, 7704201470
Associated civil work for third river dam in Nassiriya – 10 automated gates	Third river directorate	9 months	1,000,000	Amjad Hafidh, 7801107176
Al-ibrahim Syphon structure	Iraq public company	8 moths	800,000	Abdul Amir Sharad, 07814188444
Associated civil works or AZ21 mechanical system – Alfohoud district	Marsh Rehabilitation center	19 months	4,000,200	Moyad Alrikaby, 7704201470

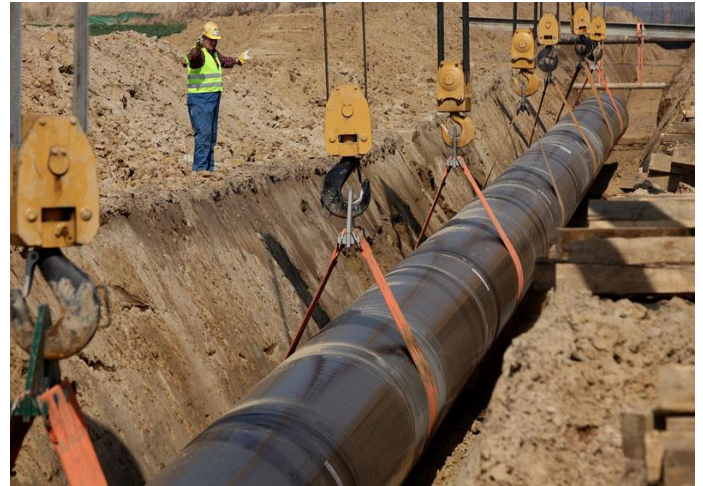

## Mechanical Works and Services

### Mechanical work and Service:

We have long experience in all sorts of mechanical works with highly satisfied clients as shown on our sample list (the list too long for this profile, thus it is limited only to recent work). We can undertake a complete turnaround package and project management of any mechanical project regardless of any size and complexity. Our mechanical services include but not limited to the following:

- Specialize piping Welding, Fabrication, and complete installation works
- Tensioning and Torqueing
- Industrial Coatings
- Structural Fabrication
- Insolation Lagging and Cladding
- Scaffolding
- Material Supply Services
- Mechanical Works for Irrigation System
- Automated Dam Gates
- Mechanical System Control and Instrumentation
- Mechanical Fabrication Services
- Mechanical Systems Maintenance
- Platforms, Handrails and Ladders Fabrication and Painting
- Pumps Supplies and Installations
- Pressure Vessel Tank Welding

**Our goal is to give the client "Best in Class Mechanical Services" and provide quality through all stages of our projects.**

### Sample of our Mechanical Works

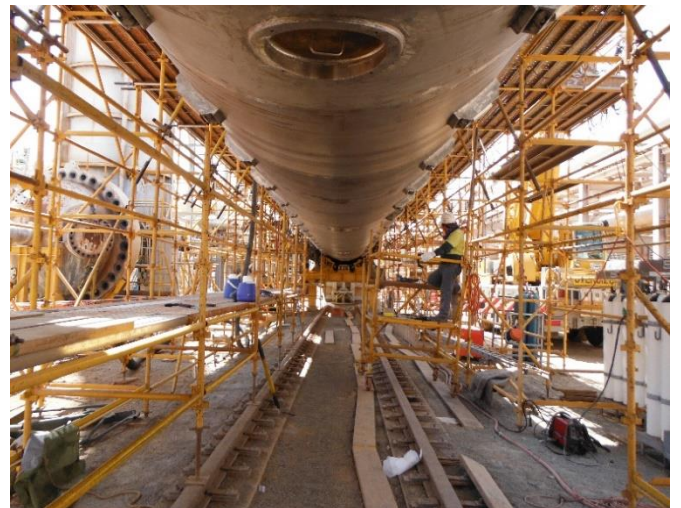

Project/Brief Scope	Client's Name	Duration	Value in USD	Contact person (reference))
Third river escape hydro gates and dam	Third river Directorate – Iraq public company	16 months	9232200	Moyad Alrikaby, 7704201470
Mechanical work for third river dam in Nassiriya – 10 automated gates	Third river directorate	9 months	1,000,000	Amjad Hafidh, 7801107176
Al-ibrahim Syphon structure	Iraq public company	8 moths	800,000	Abdul Amir Sharad, 07814188444
AZ21 mechanical system – Alfohoud district	Marsh Rehabilitation center	19 months	4,000,200	Moyad Alrikaby, 7704201470
Pipeline, 16" OTL -ZM, Call off number FIC-1318-072	Albalad ALmubarak/EMI	6 months	1,870,500	Ali Firaoon, 07809888448
16.4 Km of 10" pipeline, and Misc. call off mechanical work for NI at Hammar Mishref (workmanship only)	Albalad ALmubarak/EMI	11 months	2,200,100	Ali Firaoon, 07809888448
Misc. Pipeline and Mechanical work for INCO, WQ-2 oilfield (workmanship)	ALjazeera/Lukoil	12 months	2,935,600	Abdul Amir Sharad, 07814188444
Major Pipeline (20 ") works civil and mechanical for CPP/Gazprom, Badra Oilfield, JV work with Amimar	ALmimaar/PPP	8 months	1,705,000	Engineer Abbas, 7704133652
10 " MP HM-HA for ENI at Zubair oilfield, JV with Alahram	Albalad ALmubarak/EMI	7 months	1,360,000	Khalid Alasady, 07801396258
10" pipeline inside IPF for ENI at Zubair oilfield, JV with Albalad ALmubarak	Albalad ALmubarak/EMI	6 months	850,000	Ali Firaoon, 07809888448

4" Gas line-HA, Gas Line ZU, and Gas line-RU (various locations on call off base, call of number- FIC-1318-117, 118, and 119	Albalad ALmubarak/EMI	8 months	760,500	Abdul Amir Sharad, 07814188444
14" Pipeline from ZU to UM for ENI at Zubair oilfield, JV with Albalad ALmubarak	Albalad ALmubarak/EMI	12 months	1,905,500	Ali Firaon, 07809888448

## Torquing and Tensioning of vesels and equipment flanges

- Hydraulic Torque wrenches
- Stud removal service
- All stud sizes
- Heavy hex sizes
- Socket and low clearance link
- Tensioning Tools
- Nut Splitting and metal disintegration

## Industrial coatings

- High Performance Coating Systems
- Dry and Wet Abrasive blasting techniques
- High and Ultra High Pressure water cleaning/surface preparation and materials removal
- Environmental friendly blasting/coatings removal and painting solutions
- Specialized coating systems and surface preparation techniques

## Workshops, Vendors, and Subcontractors

AAE has an extensive network of reliable vendors, suppliers, partners, and subcontractors. We have alliance with several local and international companies such as; Mina oil and gas, Arches Energy, Sunline oil services, Antemina, Aljazeera, SilkRoad and more.

AAE and its partners have a state of the art fabrication shops equipped with high tech machines with highly trained technicians and craftsmen. Workshops are placed in different locations where we can be of quick reach to any client in the southern region. Agreements were also made mutually with partners to utilize theirs as they can utilize ours.

Our partners, subcontractors, vendors, and suppliers are continuously evaluating and enhancing their products range, to ensure that market-driven solutions to problems are continually developed to exceed the ever-increasing industry demands.

AAE is very capable in providing and operating mechanical equipment needed to accomplish the work and to fabricate whatever required in the field or at the shop in addition to providing industrial protective coatings and repair composites with proven products that rebuild, repair, and maintain machinery, equipment and structures.

## Material Supply Services

Ethics, integrity and fairness are the key business essentials applied by AAE. Without them, the Company does not have a business it can be proud of.

From work orders to bill of materials, from supplier selection to logistics, from collection of materials to warehousing, these are just some of the procurement processes that keep activities aligned with the overall project schedules. Activities are integrated via the Company ERP System - SAP. AAE experienced personnel ensure on-time supply of equipment and materials to site.

Huge data bank of vendors and suppliers across the globe enables AAE to execute projects world-wide despite difficult terrains and challenging timelines for completion.

Strategic alliances and long term vendor relationships

Integrated logistics systems accelerate shipments and handling

Strict vendor qualification procedures

ERP systems tracking from Bill of Materials generation to final delivery at site

Systems and procedures to ensure compliance with Quality and Safety Standards

One of the most important factors of AAE core values is its commitment to fair and ethical behaviour in the conduct of our business, including compliance with all applicable laws and regulations.

We can supply the following material in any size and quantity.

- Carbon steel SAW pipes
- Carbon steel seamless Pipes & tubes
- High Nickel Alloys
- Pipe Fittings
- Flanges
- Stainless Steel Pipes & Tubes
- Stainless Steel Seamless Pipes

## Operation and Maintenance Specialized Services

- Project Management
- Planning of Shutdown Activities
- Fabrication/Construction/Piping
- Hydro jetting and cleaning of pipes vessels & Tanks
- Mechanical works and Preparation
- Catalyst Handling Services
- Chemical Cleaning and Preservation
- Painting and Grit Blasting
- Scaffolding and Insulation
- Refractory and Cladding
- Pressure and Leak Testing
- Inspection and NDT Testing
- Nitrogen Purging and Initiation
- Tank and Vessel Cleaning
- Mechanical associated Civil Works
- Bolt Tension & Torque
- Chimney and Flare Works
- Rotating Equipment Maintenance
- Cold Cutting of Pipelines & Vessels
- Hot Tapping Services
- The Aqua-Milling Process
- Chemical Cleaning & Preservation, Decontamination
- Industrial Cleaning
- Automated Tank Cleaning
- Scraper Cleaning
